This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. by resolution in writing passed by the Commissioners of the Sinking Fund. The Dock Commissioner also is authorized to lease the franchise of ferries.

Taxes and Assessments.

The Department of Taxes and Assessments has at its head five commissioners, one of whom is designated as the president. The salary of the president is $8,000 a year, while that of the other commissioners is $7,000 a year. The commissioners appoint forty deputy tax commissioners, whose duty it is to assess all the taxable property in the several districts to which they are assigned. The act then says: "There shall be kept in the several offices established by the Department of Taxes and Assessments books to be called 'the annual record of the assessed valuation of real and personal estate of the borough of ——,' in which shall be entered in detail the assessed valuations of such property within the limits of the several boroughs of the city of New-York as established by this act, which said books shall be open for public inspection, examination and correction from the second Monday in January until the first day of April in each year; but on said last mentioned day the same shall be closed to enable the Board of Taxes and Assessments to prepare assessment rolls of the several boroughs for delivery to the Board of Aldermen."

Board of Assessors.

The Mayor is authorized to appoint three persons to make assessments for local improvements. The Controller, the Corporation Counsel and the president of the Department of Taxes and Assessments by the terms of the act are the Board for the Revision of Assessments.

Department of Education.

The Department of Education has at its head a Board of Education of forty-six members, appointed by the Mayor. The forty-six members of the Board of Education are divided as follows: Borough of Manhattan, 23; Borough of The Bronx, 4; Borough of Brooklyn, 14; Borough of Queens, 4; Borough of Richmond, 2. The Board of Education has the management and control of the public schools of the city. The act further says: "The Board of Education shall administer all moneys appropriated or available for educational purposes in the city of New-York, subject to the general provisions of this act relating to the audit and payment of salaries and other claims by the Department of Finance. Prior to February 15, 1902, the Board of Education shall divide the boroughs under its charge into forty-six school board districts, of which twenty-two shall be wholly in the Borough of Manhattan, fourteen wholly in the Borough of Brooklyn, four wholly in the Borough of The Bronx, four wholly in the Borough of Queens and two wholly in the Borough of Richmond. There shall be in each of said districts a local school board consisting of seven members, as follows: Five persons to be appointed by the president of the borough, a member of the Board of Education designated by the president of that board, and the district superintendent assigned to duty in such district by the city superintendent. Subject to regulation by the bylaws of the Board of Education, the duties and powers of the local school boards shall be as follows: In their respective districts they shall visit, at least once in every quarter, all the schools in the district, and inspect the same, in respect to punctual and regular attendance of the pupils and teachers, the number and fidelity of the teachers, the studies, progress, order and discipline of the pupils, the cleanliness, safety, warming, ventilation and comfort of school premises, and the observance of the provisions of the school laws in respect to the teaching of sectarian doctrines or the use of sectarian books; and shall call the attention of the Board of Education, without delay, to every matter requiring official action. They shall also, on or before the first day of January and June of each year, make a written report to the Board of Education in respect to the condition of the schools, the efficiency of teachers, and wants of the district, especially in regard to schools and school premises. They shall report immediately to the Board of Education whenever additional accommodation is necessary for kindergarten or elementary school purposes, with a recommendation of the sites within their respective district which they consider it necessary to acquire for such purposes. They shall also recommend the erection of such buildings on said sites or on any other property owned by the city of New-York, and such repairs or alterations of school buildings as they deem necessary or desirable. They shall have power, and it shall be their duty, to try charges made by a principal, a district superintendent, or by any parent or guardian of a pupil, residing in the district, against a teacher employed within their respective districts, for gross misconduct, insubordination, neglect of duty or inefficiency. On receiving notice of said charges they shall immediately proceed to try and determine the case and shall fix the penalty or punishment to be imposed for the offence committed, which shall consist of a fine, suspension for a fixed time without pay, or dismissal. Their determination upon such charges and the penalty or punishment imposed therefor shall be reported immediately to the Board of Education, which may reject, confirm or modify the determinations of the local board, and the penalty or punishment imposed and the decision of the board shall be final except as to matters in relation to which, under the general school laws of the State, an appeal may be taken to the State Superintendent of Public Instruction."

Department of Health.

The Department of Health has at its head a Commissioner of Health, the Police Commissioner and the Health Officer of the Port. It is the duty of the Department of Health to enforce all the laws of the State in regard to the preservation of human life. This includes all laws relative to cleanliness, the sale of unwholesome food and the purity of the water supply. The Board of Health is authorized to establish and maintain hospitals for the care of persons sick with contagious diseases. *Births, deaths* and marriages are reported to the Board of Health, whose members *keep a record of them.*
